DIPARTIMENTO
DI MEDICINA VETERINARIA

Venerdì 27 Ottobre
Aula Magna edificio storico
Dipartimento di Medicina Veterinaria - Università degli Studi di Perugia

MORNING SESSION

- 8.30 - 9.00 PARTECIPANTS REGISTRATION
9.00 - 9.30 OPENING AND WELCOME - Saluto delle autorità
Prof. Maurizio Oliviero, Magnifico Rettore UniPG
Dr. Vincenzo Caputo, Direttore Generale IZSUM "Togo Rosati"
Dr. Giovanni Pezzotti, Direttore Sanitario IZSUM "Togo Rosati"
Dr. Sandro Bianchini, Presidente Ordine Medici Veterinari Provincia di Perugia
Dr. Danilo Serva, Presidente Ordine Medici Veterinari Provincia di Terni
Prof. Francesco Porciello, Direttore Sanitario OVUD
Prof.ssa Maria Teresa Mandara, Vice-Direttore dipartimento MedVet
Prof. Beniamino Cenci Goga, Coordinatore corso di Dottorato in Sanità e Scienze Sperimentali Veterinarie
Prof.ssa Margherita Maranesi, gruppo AQ del Dottorato
- 9.30 - 10.00 Intervento esterno - NICOLA DONTI (Sponsored by Innovet) - L'arte della retorica: elementi di Public Speaking
- Tumour Session*
- 10.00 - 10.15 GABRIELE SCATTINI - Tridimensional model to study human and canine osteosarcoma development and interaction with tumor microenvironment
10.15 - 10.30 LIVIA DE PAOLIS - Investigation of tumor immune microenvironment (time) in BPV1-positive equine sarcoids
10.30 - 10.45 CAMILLA CAPACCIA - RAC1 pathway in canine oral melanoma pathophysiology: a potential biomarker
10.45 - 10.55 *Intervento Sponsor* - GIADA MORELLI (Innovet) - Olaliamid: nuove prospettive per il metabolismo del cane e del gatto
10.55 - 11.25 COFFEE BREAK (Sponsored by Slais)
- Clinical Session*
- 11.25 - 11.40 GIULIA MAGGI - Endoscopic retrieval of esophageal and gastric foreign bodies in cats and dogs a retrospective study of 92 cases
11.40 - 11.55 ELISABETTA PORZIO - Diagnostic imaging and successful treatment of lateral collateral ligament desmitis of the elbow in a jumping mare
11.55 - 12.10 ELEONORA MONTI - The long-term use of enflcoxib in dogs with osteoarthritis: clinical safety and efficacy
12.10 - 12.25 SIMONE CUPIDO - Technologies for a novel clinical approach of a case of complex vascular anomaly: the "extended reality"
12.25 - 12.40 SIMONA ARCARO - Skin biopsy as a diagnostic tool for the peripheral neuropathies of dogs. Set up of an indirect immunofluorescence protocol
12.40 - 13.00 Multidisciplinary 
13.00 - 14.30 LUNCH BREAK (Sponsored by Innovet) AND POSTER TOUR

AFTERNOON SESSION

- 14.30 - 14.40 Intervento Federica Sportelli - vincitrice GoR Bologna, Irene Sodi e Marta Raffaelli - Comitato organizzativo GoR Pisa
- Nutrition Session*
- 14.40 - 15.20 Intervento esterno - FRANCESCA BRESCIANI (sponsored by Hill's) - Enteropatie croniche nel cane: cosa posso fare quando la situazione sembra disperata? 
15.20 - 15.35 FLAVIA FERLISI - Antimicrobial and immunomodulatory evaluation of Olive Mill Wastewater polyphenols for dietary supplementation in an in vitro swine intestinal model
15.35 - 15.50 ELISA PALMIOLI - The case study of resistin: presence and expression in ovine endocrine pancreas related to different diets
15.50 - 16.05 DANIELE MARINI - Gastric and duodenal Visfatin expression in piglets fed with different polyphenolic supplements
16.05 - 16.15 *Intervento Sponsor* - DANIELA FABIANI (Advance) - Utilizzo di un modello di pelle di cane artificiale per indagare sulla barriera cutanea canina
16.15 - 16.45 COFFEE BREAK (Sponsored by Slais)
- Microbiology Session*
- 16.45 - 17.00 GIACOMO DI GIACINTO - Antimicrobial susceptibility of commensal Escherichia spp. and Salmonella spp. isolated from hunted wild boars and farmed pigs in Umbria
17.00 - 17.15 VALERIA TOPPI - Study of antimicrobial activity of Hemp extract seed oil against Staphylococcus aureus, Staphylococcus pseudintermedius and Pseudomonas aeruginosa strains isolated from dogs
17.15 - 17.30 NOAH SPATA - High capacity of biofilm formation in multidrug-resistant salmonella infantis strains and morphotype association
- PhD LAB*
- 17.30 - 17.50 LEONARDO BRUSTENGA - Living with a back-seat driver, can neurotropic pathogens alter red fox behavior and habitat use?
MARIA CICOGLIA - Veterinary Medicine as a new horizon of the Green economy: application of veterinary interest of sustainable flooring in rubber recycled from end-of-life tires
VALENTINA CREMONINI - Biochemical, morphological and multi-omics analysis applied to the study of storage lesions and the effect of leukoreduction on canine and equine packed red blood cells
FEDERICA GIULIVI - Use of intraperitoneal lidocaine for postoperative analgesia in horses undergoing laparotomy for acute abdomen
- 17.50 - 18.05 TRAVELLING SCIENTISTS - ADRIANA LO GIUDICE & VALERIA TOPPI
18.05 - 18.30 GoR Awards - PREMAZIONI E CONCLUSIONE
