MANIFESTO AND RESEARCH FRONTIERS FOR A RENAISSANCE IN ECONOMICS

University of Perugia, Department of Economics

20-21 June 2024

(WP 2-3 - Progetto FRA 2022 UNIPG - "Sostenibilità e società civile: orientare gli stili di vita")

PROGRAM

We are living in a difficult season with challenges that put the future of our civilization at risk.

We are aware of how much economic thought, our elective field, plays a fundamental role in our culture and how much results and awareness are now mature in the research frontier that can and must push us towards a vision that overcomes barriers and reductionism, as has always been the case in the history of scientific progress. For this reason we believed that the time was ripe in which to propose together, colleagues from the world of Italian and international universities, a manifesto that illustrates the generative potential, satisfaction and richness of the meaning of life, of a sustainable response that can come from our discipline to today's challenges.

Thursday 20/6/24 - MORNING SESSION

Parallel (or invited) sessions - ore 09.30 - 11.15 | Perugia
